USA 2024-WAT Uniform Semi-Automatic WAT Case Sealer

It is widely acknowledged that a case sealed with water-activated tape has the most secure closure. Due to changes in the corrugate industry, the need for a bond that will stick to high-recycled content corrugate to provide a more secure closure has created a demand for an automated water activated case sealer. IPG's innovation and commitment to being the market leader in water-activated carton sealing tape has engineered a solution.

Through innovation and technology, Interpack™ has developed a water-activated case sealer that addresses all the previous unfulfilled needs of the market.

- High throughput speeds
- Low maintenance
- Low cost

Now, closing cartons with water-activated tape can be faster and easier than ever before.

Interpack's USA Series Case Sealers are adjustable, operator fed machines that process same sized Regular Slotted Containers (RSC). These machines are engineered to include:

- Creative design provides world class features
- Built to last with heavy duty construction for 24/7 operation
- Ergonomic, user-friendly operation and case size set up

When you compare features, benefits and value, Interpack™ Case Sealers are the right choice for operators, plant engineers, maintenance and purchasing.

FEATURES & BENEFITS:

- Twin 1/3 HP UL approved gear motors process heavy cases for 24/7 operation
- New patent pending roller-style adhesive activation technology self cleans for less maintenance
- Easy loading external bottom tape roll
- Simplicity of the tape head assemblies makes it easy to thread the tape roll
- Double wipe down of tape legs, triple wipe down of center seam
- Adjustable tape leg lengths
- 5000' long roll tape capability
- Slide & lock case height adjustment for quick case size set up
- Water heats to 110°F
- Side belt drive captures the case between two moving belts for processing stability
- Can process 2" or 3" wide WAT
- Color coded indicator assures proper spacing between cases
- Powered tape unwind for high output line speeds
- Easy tape head access for routine maintenance
